Federal Motor Carrier Safety Administration

Hazardous Materials (HM) - Roadside Inspections

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport hazardous materials in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs).

Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

For information regarding FMCSA's HM goals, regulations, permits, training, security, etc.; please visit FMCSA's HM site at: <http://www.fmcsa.dot.gov/safety-security/hazmat/hm-theme.htm>

Summary of HM Roadside Inspections in Wisconsin

HM Roadside Inspection Activity (Wisconsin)	FY 2010		
	Fed	State	Total
Number of Inspections	36	2,466	2,502
I. Full	3	1,161	1,164
II. Walk-Around	0	1,254	1,254
III. Driver Only	0	47	47
IV. Special Study	0	1	1
V. Terminal	33	2	35
VI. Radioactive Materials	0	1	1
Driver OOS Rate	33.33%	2.19%	2.23%
Vehicle OOS Rate	36.11%	18.16%	18.42%
Hazmat OOS Rate	30.56%	5.60%	5.96%
